

Introducing Universal Content Portal

The next generation of content delivery is here! Universal Content Portal (UCP) is a secure, organized and modern system to ensure Andrews McMeel Syndication clients have the best possible experience when it comes to content delivery.

EXPERIENCE

Replacing the BBS, UCP offers all of the same functionality, PLUS new and improved benefits, including:

Notifications: UCP will notify you should a corrected or alternate file become available.

Security: We've tightened security on our end, and given you more control on your end.

One-Click Downloads: You can now download all new files with just one click!

Easy Access: UCP is compatible with any modern web browser or FTP client.
